
Ever notice how some of your friends quake with fear at the sight of snake but are cool as cucumber when a cockroach approaches... and you are exactly the opposite? Find out more about this phenomenon as well as **durian** (the delicious, but stinky fruit) and how **Manhattan** was traded for **nutmeg** in David Quammen's, The Boilerplate Rhino: Nature in the Eye of the Beholder. 508 QUA.

Right below!!

Attention 2nd Graders!!

Need books about **BUGS?**

Check out the **BUG CART** with **BUG BOOKS** for your report.

Don't miss Ms. Campbell's **TERRARIUM**. She has **7 PRAYING MANTISES!**

Can you find them all?

Ever wonder what makes a lightning bug glow?

Look up bioluminescence...
