

## Information to Enter into Periodic Table (Elements) Database

### Fields you should enter for your database:

Name of Element

Element Symbol

Atomic number

Atomic mass

No. of electrons

No. of protons

No. of neutrons

State of Matter

Metallic group  
(Metal, nonmetal, or metalloid)

**Please enter the elements with these atomic numbers into your database, and only these elements:**

1 – 20, 24, 25, 26, 27, 28, 29, 30, 35, 36, 38, 47, 50, 51, 52,

53, 55, 56, 74, 78, 79, 80, 82, 84, 86, 88, and 92

*(There are a total of 46 elements to enter information for into your database. The teacher has chosen these elements because they are the ones we'll be using in the classroom most often.)*
