

## **Modifying by complexity**

### **Example: Tiered vocabulary assignment**

**Tier 1:** On a sentence strip, make a word chain where the last letter of the first word is the first letter of the next word, and so on.

**Tier 2:** On a sentence strip make a word chain where the last letter of the first word is the first letter of the next word, and so on. Each word in the word chain must relate to the previous word in the chain AND begin with its last letter.

**Tier 3:** On a sentence strip, make a word chain where the last letter of the first word is the first letter of the next word, and so on. Each word in the word chain must relate to the previous word in the chain, begin with its last letter, AND be no fewer than three syllables.
