

## Cucumbers

A grocery store chain located in Black Mountain has just purchased some cucumbers from a grower in Mount Olive.

The grocer must distribute them to its warehouses in three major cities and to its distribution center:

- Wilmington
- Charlotte
- Asheville (distribution center)

You will use two trucks for this job.

In what region is Mount Olive? \_\_\_\_\_

In what cardinal direction is Wilmington from Mount Olive? \_\_\_\_\_

In what intermediate direction is Winston-Salem? \_\_\_\_\_

Write out the directions for the driver traveling from Mount Olive to Charlotte:

---

---

---

In what region is Winston-Salem? \_\_\_\_\_

How many miles is it from Winston-Salem to Asheville? \_\_\_\_\_

Think of another resource/crop that your company might transport. \_\_\_\_\_

---

What would be transported? \_\_\_\_\_

What city would it travel from? \_\_\_\_\_

Where would it travel to? \_\_\_\_\_

In what cardinal or intermediate direction would the driver travel? \_\_\_\_\_

Map out the directions for the driver:
